GC3684F High Flex Back with Schukra lumbar support and adjustable headrest.

GC3685 Bariatric Chair High Back with fixed legs.

Nourish™ was developed in consultation with leading healthcare professionals to be the "perfect patient medical chairs". Nourish offers unique features to address a variety of body types, sizes and mobility issues.

To facilitate safe patient transfer, each arm can be easily raised back allowing horizontal movement to and from the chair. Nourish Medical Chairs feature height adjustable legs that adjust independently to enhance the comfort level of various body types. The bariatric chair model is only available in 18.5" fixed height.

"Tilt and Move" wheels are standard on the rear legs for ease of movement within a space. Models can be personalized with a concealed depth adjustable headrest, depth adjustable "schukra" lumbar support and flexible back motion. Nourish your "fleet of" hospital chairs with patient medical chairs that are "perfect".

Top Left to Right: GC3684F shown in Momentum Drift, Grenadine (YDN0) and Allante, Cinnamon (A22E). GC3685 shown in Mayer Rain Dance, Lake (RD34) and Mayer Silverweave FR, Baltic (YBK9). All Frames shown in Tungsten (TUN) and urethane armrests shown in Platinum (PLT).

GC3684F Rear wheels & push bar allow chair to tip & move, giving caregivers the ability to move the chair without lifting. (Not for Patient Transfer)
